Motion Control
KEEPING LIFE IN MOTION

A *Fillauer* COMPANY

Motion Control Hand

*The next generation
in myoelectric hands*

Durable Materials

- High Strength machined aluminum
- Steel fingers optional
- Wide gripping fingers

High Performance Drive

Even stiff silicone gloves can open fully.

Ultra High Speed in both:

- Utah Arm 3 at 12 volts
- ProHand Plus at 7.2 volts

The "ProHand" Option

The Motion Control Hand with a ProControl 2 built right into the Hand! "Plug & Play" for use with nearly all manufacturers' components.

Quick-Disconnect

Fits standard wrists and Motion Control (MC) Wrist Rotator.

Short Hand Option

Save space without sacrificing Q/D feature.

Multiple Wrist Options

Flexion Wrist, Multi-Flex and MC Wrist Rotator

Safety Release

Convenient opening, even in emergencies!

Cosmetic Covers

Compatible with many high-quality gloves including:
Centri - PVC or silicone (w/micro-coating option)
Regal - Silicone for myoelectric hands
